Quotation of oil refining machine

Product Description

This oil refining machine series is designed for small to medium-scale edible oil production, including sunflower oil, soybean oil, and palm oil. Our cooking oil refining machine effectively removes impurities from crude oil, turning raw oil into safe, high-quality finished edible oil. From the small palm oil refining machine to the 1 ton crude oil refine machine, we offer flexible solutions to meet different production needs.

Product Technical Information

Name	LYJ-0.5t	LYJ-1t
------	----------	--------

Quality, price, time and service is the tenet of our business.

Credit, reposal, negotiation and cooperation is our standard.

Product Features

1. Multi-oil Compatibility: Works as sunflower oil refining machine, soybean oil refining machine, crude palm oil refining machine, and more.
2. High Efficiency: Removes free fatty acids, pigments, and odors with minimal oil loss.
3. Stainless Steel Build: Food-grade material ensures hygiene and easy cleaning.
4. Small Footprint: Ideal for small-scale production with our oil refining machine small models.
5. Customizable: Supports both edible oil refining and industrial applications (e.g., used oil processing).
6. Reliable Quality: As a professional manufacturer, we offer stable performance for all refining oil machine series.

Quality, price, time and service is the tenet of our business.

Credit, reposal, negotiation and cooperation is our standard.

Product Advantages

IMPROVES OIL QUALITY

Effectively removes impurities, free fatty acids, pigments, and off-odors from oils, improving their transparency, stability, and taste.

ENSURING FOOD SAFETY

It can remove pesticide residues, heavy metals and other harmful substances from raw cooking oil, ensuring the safety of the cooking oil for consumption.

IMPROVE PRODUCTION EFFICIENCY

Adopt advanced automated control systems to achieve continuous and automated production, reduce production costs, and improve the company's economic benefits.

Product Application

- 1.Small to medium cooking oil factories
- 2.Sunflower, soybean, and palm oil processing plants
- 3.Edible oil production lines
- 4.Small-scale oil refinery projects

Working Principle

This edible oil refining machine works through 5 core steps:

1. Degumming: Remove gums and impurities.
2. Deacidification: Neutralize free fatty acids with alkali.
3. Decolorization: Remove pigments using adsorbents.
4. Deodorization: Eliminate bad odors via steam distillation.
5. Filtration: Ensure the final oil is clear, safe, and ready for use.

It supports processing of various crude oils, including those for the crude palm oil refining machine and sunflower oil refining machine applications.

Process Flow

Quality, price, time and service is the tenet of our business.
Credit, reposal, negotiation and cooperation is our standard.

Why Choose Our Oil Refining Machine?

- 1.Wide Range of Models: From oil refining machine small units to the 1 ton crude oil refine machine, we have solutions for every scale.
- 2.Multi-purpose Functionality: Works as soybean oil refining machine, palm oil refining machine, and other vegetable oil refining equipment.
- 3.Food-grade Safety: Built with stainless steel, meeting international hygiene standards.
- 4.Low Maintenance & High Efficiency: Reduces oil loss and energy consumption, saving your production costs.
- 5.Custom Service: We can tailor the refining oil machine according to your specific raw materials and production capacity.

Tips:

WHY IS REFINING NECESSARY FOR CRUDE OIL?

Crude oil is oil initially extracted from oilseeds, and its color, odor, and taste are often less than ideal. Refining removes impurities, improves the oil's color, odor, and taste, and enhances its quality. Ensuring safety is also crucial: Crude oil may contain impurities harmful to human health, such as free fatty acids, pigments, pesticide residues, and heavy metals. The refining process effectively removes these impurities, ensuring the safety of the edible oil.

Other related machinery

This is a complete edible oil refining production line. From raw oilseeds, through cleaning, pressing, and refining processes, it

Product Packaging & Shipping

1. Packaging

In order to ensure the safety of the product during transportation, we have adopted strict packaging measures. The main body of the equipment will be fully wrapped with high-strength plastic film to prevent erosion by dust, moisture, etc.

Quality, price, time and service is the tenet of our business.

Credit, reposal, negotiation and cooperation is our standard.

ZHENGZHOU LERFORD MACHINERY EQUIPMENT CO.,LTD

Tel: 86 371 55960109

Fax: 86 371 55960109

during transportation, and to avoid damage due to collision during transportation.

In terms of overall packaging, the equipment will be loaded into a customized wooden box. The wooden box has a sturdy structure and is equipped with a special fixing device inside, which can firmly fix the equipment and prevent the equipment from shaking in the wooden box. At the same time, the name, model, weight, transportation precautions and other information of the equipment will be clearly marked on the wooden box, which is convenient for transportation and handling personnel to identify and operate.

2. Transportation

For international customers, sea transportation is mainly used. Before loading, the equipment will be strictly inspected and reinforced to ensure that the equipment is not damaged during long-term sea transportation. At the same time, we will cooperate with professional freight forwarding companies to handle relevant transportation procedures and insurance, and provide customers with one-stop transportation services, so that customers have no worries.

Company Introduction:

Zhengzhou Runxiang Machinery Equipment Co., Ltd. is an enterprise focusing on the research and development, production and sales of agricultural and food processing equipment. Over the years, it has been committed to providing customers with high-quality, high-performance equipment and perfect solutions. The company has a team of professional engineers, technicians and sales staff who have rich experience and expertise in their respective fields.

In terms of research and development, the company continues to invest a lot of resources, pays attention to the latest technology and market demand in the industry, and has established cooperative relations with many scientific research institutions and universities at home and abroad to jointly carry out technical research and product innovation. Through continuous efforts, the company has launched a series of advanced equipment with independent intellectual property rights.

In the production process, the company strictly follows the international quality management system, from the procurement of raw materials to the assembly and testing of products, every link is strictly controlled to ensure the stable and reliable quality of the products. The company has a modern production base and advanced production equipment, which can meet the customized needs of different customers for equipment.

Quality, price, time and service is the tenet of our business.

Credit, reposal, negotiation and cooperation is our standard.

COMPANY INTRODUCTION

How about after sales service:

After-sales service policy

1. After receiving payment from customers , sales should reconfirm the basic requirements of the machine configuration, voltage hertz, accessories and other basic requirements as soon as possible, and then send a purchase order to the workshop as soon as possible in order to save time of customers.
2. Make sure to keep the pictures before and after the packaging before shipping, and reconfirm whether the shipping list is consistent with the purchase order and the customer's needs.
3. After receiving the bill of lading, prepare the packing list and invoice for customs clearance and other customs clearance documents that the customer may need as soon as possible.
4. Every one week, two weeks and or one month (determined by the voyage), follow up the freight forwarder to check the latest route of the customer's cargo and inform the customer about the newest arrival time.
5. Please remind customers to bring customs clearance information to the freight forwarder to prepare for customs clearance ten days before the arrival of the goods.

Quality, price, time and service is the tenet of our business.

Credit, reposal, negotiation and cooperation is our standard.

6. Please contact customers in time to follow up the latest progress of customs clearance and transportation, remind customers to check whether the packaging is in good condition, and protect the packaging during transportation to avoid damage to the machine.

7. Must contact customers to guide the wire connection,using and precautions before and during operation.

8. After sales follow up must be provided every month, and any after-sales problems are reported and resolved in time. If the after-sales problems are not resolved as required, according to the seriousness of the circumstances, sales will be warned, punished, and expelled in accordance with the company's rules and regulations.

9.If you have any other useful suggestion about our after sales service,welcome to contact us at susan@pelletmilling.com any useful suggestion will get extra \$100 from our company as gift,welcome everyone!
